

NO HOT ASHES

The ashes may have cooled but this band is cookin' - classic blues, rock and original material combined in a combustible mix brought to you by Aberdeen based No Hot Ashes

With members hailing from the cold North East Coast and the sunny shores of California the band offers an authentic mix of guitar led rock and blues.

Featuring the twin lead guitars of Aberdeen's own Charlie McIntosh and 'Guitar Chas' Brusatori from California by way of Houston TX No Hot Ashes offer a dynamic and varied approach with songs from the blues and rock masters and Charlie McIntosh's distinctive self-penned compositions.

Fronted by Kevin Thom's soulful vocals and with the rock solid rhythm section of Stuart McIntosh and Keith MacRae holding everything down this is really a band to turn the heads – and get the feet tapping!

So here's the line – up in more detail:

[Charlie 'Chuck' McIntosh](#)

Charlie has been a fixture of the Aberdeen guitar scene for many years having been a leading light in bands such as the Lima Hi Kats and Slipstream. Charlie has returned to his true love of the blues in NHA and it offers the perfect vehicle for his distinctive blues and rock drenched style as well as his talent for memorable compositions.

[Chas Brusatori](#)

Arriving in Aberdeen from Houston Texas only last autumn, Chas brings his own dynamic guitar playing honed in the clubs of the heartland of southern blues and rock. A lyrical as well as hard rocking player, Chas brings light and shade to the NHA front line and offers a great counterpoint to Charlie's attacking style.

[Kevin Thom](#)

NHA's popular front man wins new fans wherever the band play. Equally at home with modern rock favourites, Kevin brings a depth of emotion and feeling to his interpretation of classic rock and blues material. A truly distinctive voice, Kevin lights the fuse which fires NHA into action.

[Stuart "Blue" McIntosh](#)

The youngest member of the band, Stuart cut his teeth as a teenager in a punk combo and his style retains the best elements of punk's high energy trademark, propelling the band with perfect timekeeping and tireless drive. Stuart is much more than that, though – he can rock, he can swing, and he can bring the music up or down without missing a beat.

[Keith MacRae](#)

Still recovering from hearing Cream and Jack Bruce play Sunshine of Your Love in 1968, Keith brings a lifetime of devotion to and knowledge of rock and blues to the band. A love of jazz and modern music adds to his experience and his playing which fits perfectly with his rhythm section partner on the drums.
